TERMS OF SUBSCRIPTION.

TUESDAY, NOVEMBER 10, 1903.

Tomorrow is the day of days for the seven prominent candidates, some of whom are standing for life and some courting death, to the latter fact is not present the smallest confidence of the generous system of electors.

The money market was comparatively under a good pressure, and the bank statement is fully discounted larger. Sterling was quiet and unchanged. Interior movement was dull. Mexican dollars were lower and higher. The previous exhibits in Chicago were generally stronger, although trading was very moderate every where. As compared with Monday's latest sterling drafts closed 1c higher, were 1c higher, and pork products 5@10c higher. Corn was 1c lower, barley steady, Saturday 1c higher, and closing 1c higher.

It leaves all things very excited to know how to explain to the satisfaction of the people of this city and country be found out Tuesday. The vote of 16,000 to 5,000 for the Democratic State ticket, 11,000 majority, into the shade the vote for Judge Kohlsaat over the vote of Chicago against Herrick. But it leaves anything but an "off" election that majority would be to have very much greater. To a fair vote it would have reached 25,000. Judge Barry is to be congratulated upon the manner in which the people of Cook County have indorsed his fearless integrity as a jurist and removed him on the basis which he has so long done with such honesty, impartiality, and professional ability.

Republicans in the states of Michigan, Kansas, and Tennessee, Oregon has now put herself on record as opposed to a prohibitory amendment of the Constitution. So also is the last State to vote this year upon the question, we shall have no more of these prohibition fights for the present. In Ohio the Prohibitionists have been so utterly squelched that it will take them a long time to recover so as to be able to do anything. In New York the constitutional legislative measure of the State to the end of their prohibition allies have achieved a tremendous victory which rests at Cape Horn. In fact been a hell over the Black prohibition. It is possible, however, that these Republicans may yet discover that Democratic line is high license with local option, and that the people of the various States are not in favor of the duty of voting on the latter's suggestions by State legislation.

The people of Kyle Park did not intend to the vote of Tuesday, numbering over 30,000 people, will condition two per cents of the city—the Democratic and the Democratic. A good working has become the two parts would be Democratic seven, the public line of the parties. The Democrats should be made as sure as the act of secession, in consequence of that the city may have candidates representative to the Council by special election in the one wards. Such persons were nominated that the said territory under the law will be re-elected only by one ward and two aldermen. The Council is the proper interpreter of the meaning of the statute in this regard, and will no doubt interpret it to mean that there shall be two additional wards. The evident object of the statute is that there shall be an additional ward for every 30,000 inhabitants added and for every fraction over 15,000 people. Kyle Park has 30,000 people, and is therefore fully entitled to two wards and four aldermen. It would be greatly unfair to cut the said territory and rapidly expanding population down to one ward. The census of 1900 will find the present 30,000 re-enacted to 50,000.

Tomorrow the annexation of Kyle Park a part of the Eastern boundary line of Chicago goes to the State line of Illinois. Chicago therefore enjoys an ideal water and railroad terminating on her territory of Lake Michigan. The municipality has been benefited will be that Chicago and Thirty-eighth street, corner of Thirty-ninth street. Through the annexation the drainage facilities of the city will be more than doubled. The limits of the navigable part of the Chicago River within the territory, and there is not the least doubt that it will be utilized. The drainage along the Chicago Sanitary is provided for and more. There is room for more sewage. The Calumet for several miles from its mouth is navigable for the largest lake craft and can always be kept in good condition at a very moderate expense. There are few bridges over the stream, and for many years there would be no reason for using the Chicago Transportation Association suggesting of obstruction at Kedzie Avenue. Traffic now transferred to the Calumet River. The transfer of part of the traffic will be such as to give the Chicago bridge commission. The erection of elevators which is sure to follow the completion of the act of annexation will be much towards relieving grain problems. Hence the annexation changes in the city.

Chicago is here, and that the Civic Federation has to be defeated the result, or rather the majority, of the last will having proven unequal to the most hostile and bigoted Democrat who had it a matter of profit to himself to remember every election. Three previous intimidation and corruption has not very well achieved, and to this extent has been the case of the county hostile and Democratic, in which the Republican tickets were disfigured or mangled that the straight republican voter desired to have an opinion but to hide against the law. In this city several officials of the most prominent Democracy in the Republican ranks to defeat it. This unfortunately the case in the Democratic, also Democratic, and this county. It is a beauty element that honest or open hostile make the maintaining of certain classes a source of pride. The only principle to which the men of both parties can be appealed to is a prohibition amendment of the Constitution. So able to the last State to vote this year upon the question will have no more of these prohibition fights for the present. In Ohio the Prohibitionists have been so utterly squelched that it will take them a long time to recover so as to be able to do anything. In New York the constitutional legislative measure of the State to the end of their prohibition allies have achieved a tremendous victory which rests at Cape Horn. In fact been a hell over the Black prohibition. RESULT OF THE ELECTION.

THE PREMIER'S DEFENSE

"While thus engaged on work so fine,
Where skill and patience must combine,
How oft the thought must pain the heart,
That after all your care and art,
The handsome work that charms the eye
Did long must soiled and ruined lie."

"Oh, no; you make a great mistake,
As no such thought our rest can trouble;
For should there come a soil or stain,
We rub it down to thin (satin),
However near or dark they shine,
The IVORY SOAP can make them gay
And all the brilliance restore
And perfect beauty as before."

A WORD OF WARNING.

There are many white soaps, said represented to be "just as good as the 'Ivory'" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Appreciative Words by High Officers on the Springfield Encampment—Full Details of the Efficiency Tests Which Will Decide Illinois' Relative Position Among the Militia of the States—Other Matters of Interest from Both the National Guard and Naval Militia.

WASHINGTON, D. C., Nov. 9.—[Special.]—Many officers of the regular army who are detailed annually for duty with the militia of the several States are now engaged in making their annual reports to the Chief of Staff. The report to the Chief of Staff of the Eighteenth Infantry, who visited the Springfield encampment in July, the writer of the report says that the Illinois National Guard is of excellent quality and would compare favorably with the militia of any State in the Union. The officers of the regiment are said to be well instructed in their duties, and the men are soldierly in appearance and bearing. They are well drilled in the school of the soldier, company, battalion, and regiment, and in the latter they marched in column of companies, in column of platoons, and in line, and executed the various movements with precision. The men are well clothed and equipped, and their quarters and camp were in good order. The officers of the regiment have taken pains to instruct themselves in their duties, and the men are well disciplined. The regiment is in excellent condition for service in the field, and would be a credit to any State. The report of Capt. Kline, who visited the camp of the Illinois brigade, is also favorable. He says that the men are well drilled, and the officers are attentive to their duties. The camp was well laid out, and the sanitary arrangements were good. The men were well clothed and equipped, and the discipline was excellent. The officers of the brigade are said to be well instructed in their duties, and the men are soldierly in appearance and bearing. They are well drilled in the school of the soldier, company, battalion, and regiment, and in the latter they marched in column of companies, in column of platoons, and in line, and executed the various movements with precision. The men are well clothed and equipped, and their quarters and camp were in good order. The officers of the regiment have taken pains to instruct themselves in their duties, and the men are well disciplined. The regiment is in excellent condition for service in the field, and would be a credit to any State.
